

Git e GitHub – Issues

Aula 03

Prof. Leonardo Bontempo

leonardo.bontempo@faculdadeimpacta.com.br

Issues

O que são Issues?

Issues são problemas ou questões que merecem atenção em um projeto (p.e. repositório).

Quem usa as Issues?

Proprietário do repositório **vs** Usuários
Gestor das Issues **vs** Usuários das Issues

Gestor vs Usuários

Gestor

- Promove a colaboração e se beneficia dela.
- Gera oportunidades de intercâmbio mútuo.

Usuários

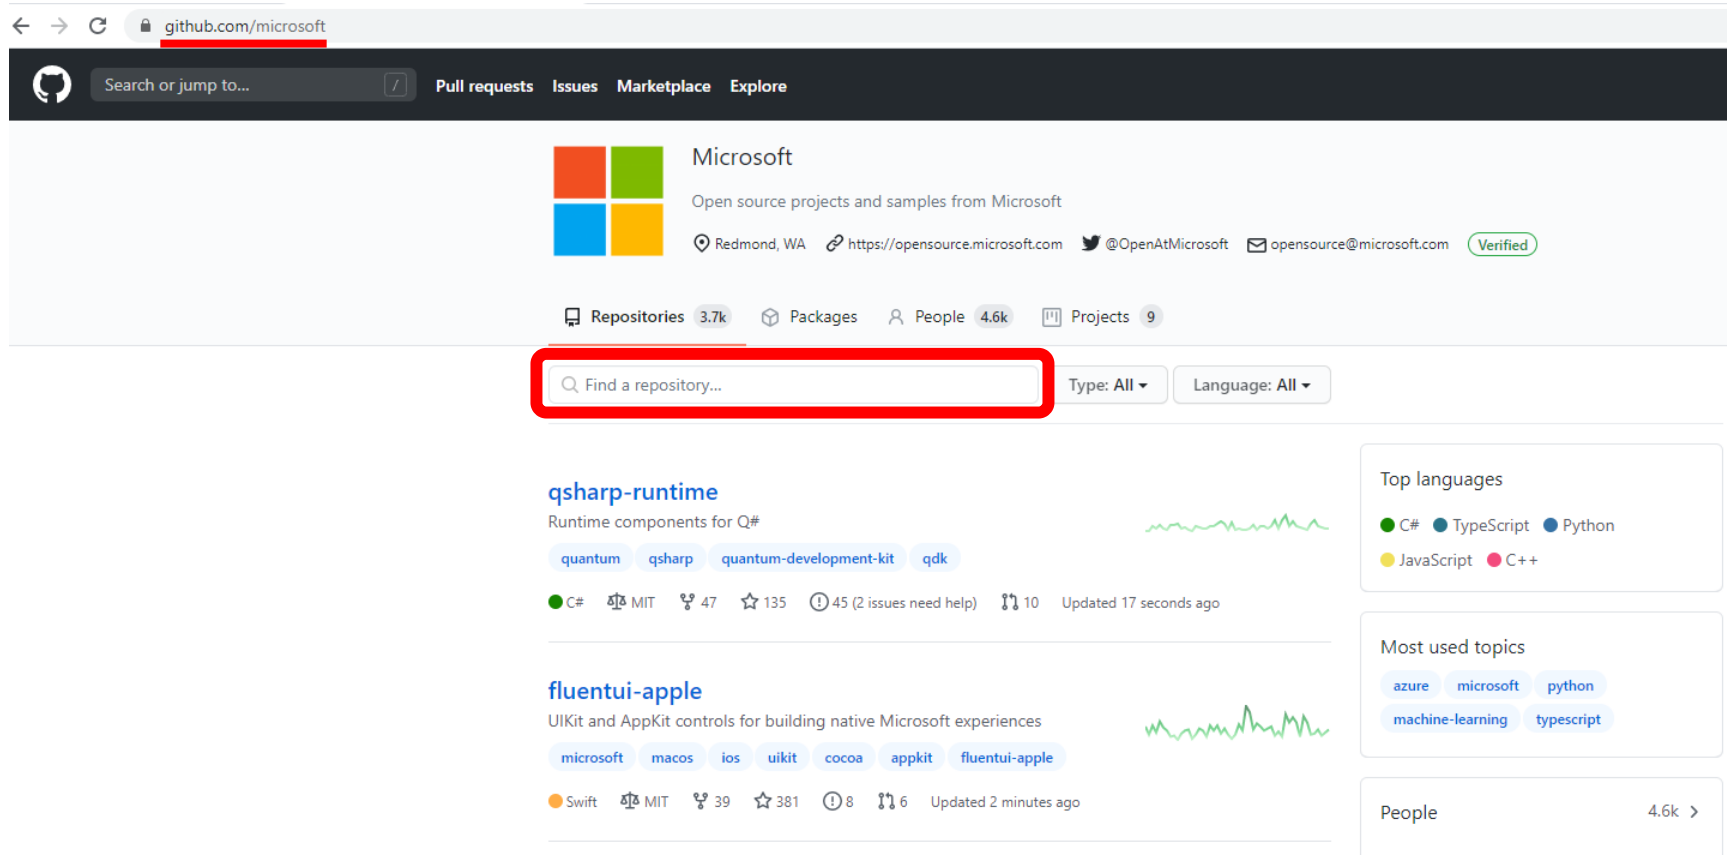

- Podem ajudar ou ser ajudados (rede social).
- Podem colaborar ativamente com projetos, ganhando experiência e credibilidade.
- Issues são fonte de inspiração, promovem a criatividade.

Issues

Descobri um problema, o que fazer???

- Se você não sabe como resolver (Reportar):
 1. Pesquisar as Issues existentes.
 2. Criar uma Issue.
- Se você “sabe” como resolver (Pull request):
 1. Criar um Fork
 2. Criar um Branch
 3. Solicitar o Pull Request

Exemplo – GitHub Microsoft

The screenshot shows the GitHub profile page for Microsoft. The search bar is highlighted with a red rectangle. Below the search bar, the repository **qsharp-runtime** is listed, followed by **fluentui-apple**. The right sidebar contains sections for 'Top languages', 'Most used topics', and 'People'.

Currently VS Code does not update diagnostics during edits and rely on extensions owning those diagnostics to update them.

From @pkruk2

In case extension can't simply re-generate diagnostics (for example due to side-effects or long generation time):

- right now diagnostics are not very usable, they point to wrong location
- if updated based on file edits, they could point to correct location

My argument is that in this case not updating diagnostics is worse than updating them.

I think for this discussion it would help to be very precise about terms. Let's start with a crisp explanation:

The screenshot shows the GitHub user interface for a user named 'leonardobontempo'. On the left, the 'Settings' link in the navigation menu is highlighted with a red box. The 'Saved replies' option in the settings sidebar is also highlighted with a red box. The main content area shows the 'Saved replies' section, which is outlined with a large red rounded rectangle. This section includes a description of saved replies, a 'No saved replies yet.' message, and a form to 'Add a saved reply' with fields for a title and a text area for the reply content.
